

Glovius, a powerful visualization solution for aerospace industry

Aerospace component manufacturer saves 88% on license costs with Glovius

A US based aerospace manufacturer wanted to equip their downstream users with a powerful visualization solution to improve their productivity and response times. The solution had to be cost effective, handle multiple CAD formats, and replace multiple tools without consuming CAD licenses. The solution should be familiar, with zero or minimal training required for quick onboarding of users.

About the Company

One of the world's largest Tier 1 supplier in the Aerospace Industry. Focused on manufacturing aerostructures and offering MRO services

- Revenue - 3+ billion USD
- Units/Subsidiaries - 10+
- Employees - 5000 +

"Glovius delivers a strong collaborative visualization choice for users looking to improve their data sharing experience during product development."

- CIMdata

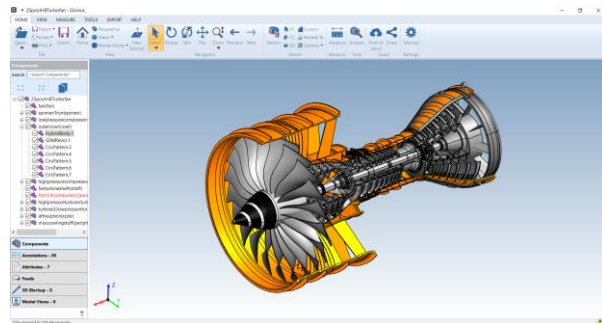

✓ Glovius Usage

Glovius is used by teams in Manufacturing Planning and Purchase departments for Paperless Manufacturing and Should Costing.

- 50 + Glovius users at two locations
- Floating (Network) licenses

✓ Value Delivered

- Visualization and Analysis of CATIA and NX product data, without a CAD license.
- 88% savings in CAD license costs
- Powerful Analysis tools enabled the Manufacturing planning and Purchasing teams to quickly Analyze designs, generate reports, and quickly respond to RFQ's

Glovius CAD Viewer

HCL Technologies is a next-generation global technology company that helps enterprises reimagine their businesses for the digital age. Our technology products, services, and engineering are built on four decades of innovation, with a world-renowned management philosophy, a strong culture of invention and risk-taking, and a relentless focus on customer relationships.

We offer an integrated portfolio of products, solutions, services, and IP through our Mode 1-2-3 strategy, built around Digital, IoT, Cloud, Automation, Cybersecurity, Analytics, Infrastructure Management and Engineering Services, amongst others. With a worldwide network of R&D, innovation labs and delivery centers, and 150,000+ 'Ideapreneurs' working in 46 countries, HCL serves leading enterprises across key industries, including 250 of the Fortune 500 and 650 of the Global 2000.
